

You are invited!

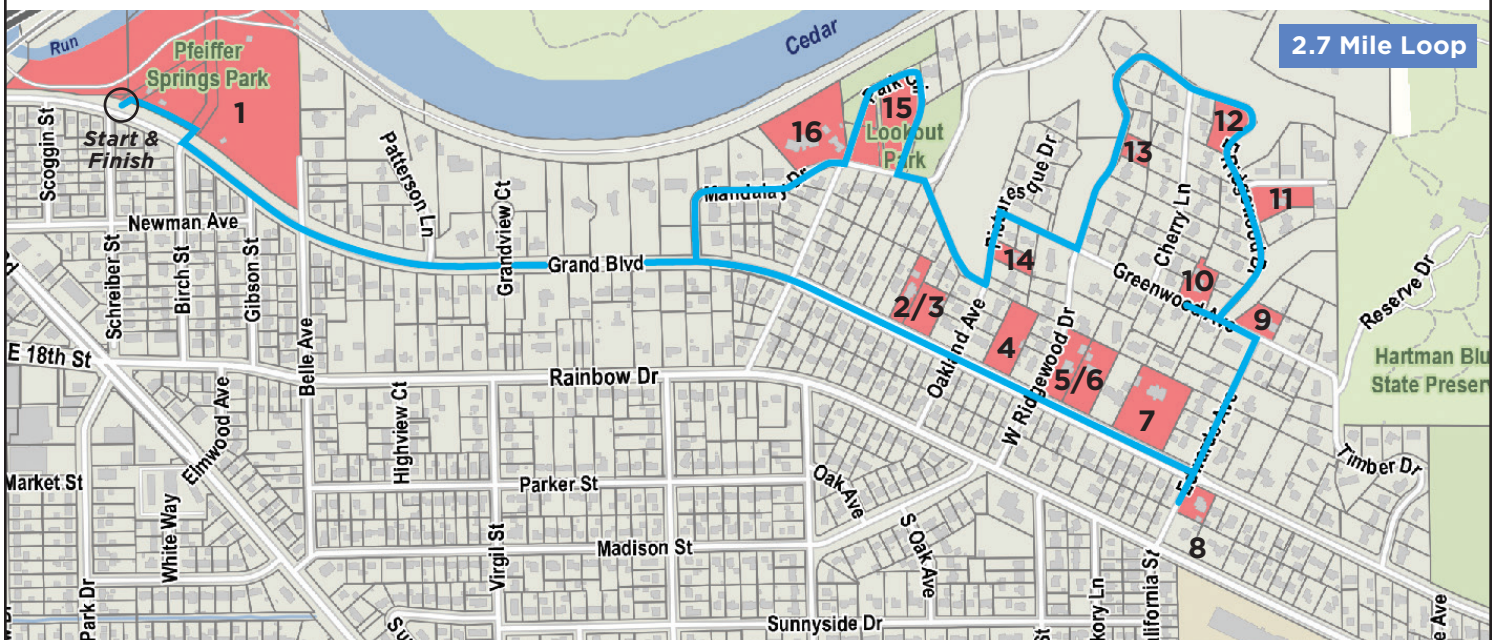

History of Cedar Heights with Architectural Tour

Learn about notable homes in the area and what makes their architecture unique! View the presentation on the city website about the history of the neighborhood, from it's founding as a city to it's "marriage" to Cedar Falls.

This tour is a street side tour intended for walking and biking in the neighborhood to feel the historical ambiance—not to visit the listed houses. Please respect the privacy of home owners and do not disturb home owners or be a nuisance to any property. Thank you!
