

DEPARTMENT OF COMMUNITY DEVELOPMENT
LAND USE PERMIT APPLICATION

City of Cedar Falls
220 Clay Street
Cedar Falls, Iowa 50613

General Information: Applications for developing a property, either by new construction or additions, within the City of Cedar Falls will be considered when all required documents and fees are submitted. Land Use approvals for smaller projects - see examples below - typically take a few days. Projects of this size must complete the Land Use Application. Applications are reviewed by city staff.

Examples of smaller projects (this list is not all inclusive):

- New single-family or duplex construction
- New deck to the back of a home
- Expansion of a house or attached garage
- New driveway, expansion of existing driveway, or paving parking
- Construction of a shed, detached garage, or any detached structure
- Addition of a fence on the property
- Construction of a swimming pool
- Raising backyard poultry
- Placing an antenna on an existing building /tower

All multi-family and commercial projects must submit through the Site Plan review process.

Note: In addition to a Land Use Permit, a **SWPPP (prior to new home construction) and Building Permit are also required** before a property can be developed. For more information, contact the City's Building and Engineering Divisions by calling (319) 268-5161. **All Contractors must be registered with INRCOG and in the city's system.**

Deadline: A Land Use Application can be submitted at any time.

Checklist for a Complete Submittal:

- Nonrefundable fee: \$45
- Completed Land Use Property Sketch, see the back of this sheet for an example (clearly label and cross-hatch your proposed construction, including driveway(s) and sidewalk(s), indicating the dimensions and use)
- Land Use Property Sketch for poultry permits should include dimension to adjacent dwelling units and to the side and rear yards of subject property.
- Floodplain elevation certificate, if applicable
- Sketch showing direction of water flow for any new pavement
- Low water entry point, for walk-out basements and detached garages
